

Messenger+ Flowing Gas: AutoPark Service Election Overview

AutoPark Service Election Overview

An AutoPark nomination will automatically be generated to provide the balancing nomination for an out of balance pool:

- ✓ If parking and/or unparking quantities are available and
- ✓ If the pooling shipper has elected to participate in AutoPark Service

Note: To participate in Pool AutoPark Service a pooling shipper will need to have an associated GPS AutoPark contract.

The AutoPark Service Election screen:

- $\checkmark\,$ Shows if the Pipeline is allowing Due Pipe and Due Ship nominations
- ✓ Allows the pooling shipper to turn on/off AutoPark Service Participation
